MEXICO' AUTO INSURANCE INDUSTRY REPORT 3M26

Figures in this document are stated in millions of Mexican pesos, except where otherwise specified, and they may vary due to rounding or consolidation from the regulator. Growth rates are presented in nominal terms.

According to the Mexican Association of Insurance Institutions (AMIS per its acronym in Spanish), during the first quarter of 2026, automobile insurance industry reported an increase of 8.1% in written premiums. Mexican GDP during the first quarter of the year, posted an increase of 0.2%¹ compared to the same period of last year. On the other hand, annual general inflation as of March-end was 4.6%².

Regarding industry's cost ratios, during 3M26, the industry posted a combined ratio of 90.8%, an increase of 340 bp (basis points) vs 3M25.

In the chart³ below bank-owned insurance companies have been disaggregated, since some of them belong to a financial group which have cross-selling schemes with the bank's clients, thus resulting in a different cost structure.

VEHICLES' SALES AND FINANCING

New vehicles sales⁴

Sales of light vehicles (cars and trucks) increased by 3.7% during 3M26 compared to 3M25, with a total of 381,653 units sold. Regarding heavy-duty units (vehicles over 3.5 tons), sales decreased by 28.0% as of the end of March compared to 3M25. This resulted in a total increase of 2.1% in new units sold during 3M26, with a total of 395,426 units sold in 3M26.

Of total new light vehicle sales as of the end of March, automotive financing for light vehicles (new and used) reached 63.9% of total light vehicles sold, 1.9 pp above same period last year. As of the end of March, financing for new units increased by 8.5%, while used units decreased by 1.1%.

Financing by type of vehicle and market share by institution⁴

By March-end, the historical trend of the main source of financing for the acquisition of new vehicles remained unchanged, through financial companies (the financing arms of the car dealerships), with an 80.0% share, which increased by 46 bps compared to the same period of 2025; followed by bank financing, which decreased by 48 bps compared to the prior year.

The reference rate in Mexico stood at 6.75% as of the end of March, compared to 9.0% at the end of 1Q25⁵.

AUTOMOBILE INSURANCE INDUSTRY

Total market written premiums during 3M26 stood at \$60,759 million, representing growth of 8.1% compared to 3M25. Premium issuance growth among the five largest companies was 5.2%; medium-sized insurers grew by 17.7%, while the remaining insurers reported a decrease of 1.0%.

The market's net income was \$4,475 million, a decrease of 13.5% compared to 3M25. This was explained by a 12.8% increase in loss costs, or \$3,683 million, driven by the new VAT law 2026, resulting in an industry operating result of \$2,525 million, a decrease of \$1,369 million vs. 3M25.
